

Local weather and traffic is one of the more important features for those of us who travel a great deal. Relying on local stations for this information and or their music is bad at best. Work on local stations to better them and leave the guys who do a good job alone, ie. XM radio. The reason I have XM radio was to get rid of the bad music and lack of local information that local stations force down the publics throat everyday. Have the FCC tune in for a change not TUNE OUT. I NEED LESS GOVERNMENT IN MY LIFE NOT MORE.
